Medical Social Collaboration HKEC Experience

15 December 2018, Saturday
9:30 am – 11:30 am

"Medical Social Collaboration" has become an important and indispensable strategy to promote patient rehabilitation and community integration. The setting up of collaboration platforms and other strategies employed in HKEC were found to be effective and sustainable in promoting patient empowerment and community engagement. This presentation aims to share the experience and learnings on the Medical Social Collaboration, of Community and Patient Resource Department, PYNEH, Hong Kong East Cluster, for the past 2 decades.
